# Subash S

## OBJECTIVE

To secure a position as a software developer in a dynamic and innovative company that offers a stimulating environment for learning and applying new technologies. Looking for an entry-level role where I can develop my programming skills and contribute to creating impactful software solutions that drive the company's success.

## PROJECT

### Insurance Management System

An Insurance Management System is designed to streamline the process of managing insurance policies, claims, and customer data. It is aimed at insurance companies, brokers, and customers, providing a unified platform to handle the end-to-end lifecycle of insurance services. Here's an overview of what such a project might involve:

### Baby Care Center

The main goal of a Baby Care Center is to offer a safe, nurturing, and stimulating environment for infants and toddlers. It may cater to working parents, providing daycare and early learning programs, or serve as a community center for parenting support and education.

## CERTIFICATIONS

- I have completed Internship Training in Maasmind, Chennai.
- This training covers Core Java HTML, CSS, Javascript, Python, Django framework and SQL.
